the parody

Peace had reigned over the Kingdom of Sasaria for many years after the defeat of the Enchantress Missynax at the hands of a brave warrior. But now a new terror is being awakened.....

You must save Sasaria from the evil Exodius. Take three companions with you and good luck! You're our only hope, Link.

Are you sure you're not a shepherdess?

Now, that's just Fos. He's the only wizard there is, so we gotta take him
